# PROGRAMS

## □ Parents Who Host Lose the Most Campaign

A national awareness campaign focusing on teen access to alcohol and drugs in the home and at the homes of friends. This campaign encourages parents to set boundaries for their teens, keeping them safe and drug-free.

## □ Parent Forums

Discuss substance abuse issues, examine local student survey data on substance use and abuse, and discuss concerns with student and community participants. The Coalition will help organize and promote the event and provide resources for parents and families. Call **989-224-5303** to schedule a forum in your community.

## □ Compliance Checks

Work with law enforcement to check the compliance levels of local alcohol and tobacco vendors and to provide vendor education on laws, new license formats and signage, and recognizing underage purchasers. We strongly support raising the awareness of communities regarding the multiple sources of underage access to alcohol and other drugs.

## □ Safe Prom/Graduation

We also participate in and support local Safe Prom and Safe Graduation efforts. This initiative is promoted by the law enforcement officials in the tri-county area. The goal is to help make prom/graduation time safer for the youth in our counties.

## □ Monthly Meetings

Are open to everyone and we welcome your attendance! Call **989-224-5303** for more information.
